CORNERED SPEAKERS

With CORNERED speakers, you can enjoy two things in one: unique design and excellent sound.

CORNERED speakers feature a one-of-a-kind 90-degree triangular design that makes for a discreet and elegant installation anywhere in your home - in corners, on the wall, below the ceiling, on shelves and as a centre and rear channel for surround sound.

CORNERED speakers also offer excellent sound quality. They reproduce a natural three-dimensional sound stage that fills your room with sound.

C3 - black or white (pair)

C3 is an extremely compact speaker designed for hi-fi and home cinema sound in small to medium sized rooms.

With an ultra long-throw 4" woofer and a 1" tweeter with silk dome, the C3 offers wide dispersion and excellent audio while taking up a minimum of space. It mounts without brackets through the cabinet with only two screws. With a hidden cable terminal, it can be installed discreetly in vertical and horizontal positions. C3 is the perfect choice as a full range speaker for smaller rooms, or as surround speaker for the C4.

4" woofer

1" silk dome tweeter

ABS cabinet with MDF baffle

Very compact design

<p>C4 - black or white (pair)</p> <p>The C4 is a smaller version of the Cornered C5 monitor and sets new standards for sound pressure from compact cabinets.</p> <p>Using an ultra long-throw 4" woofer with a 4" passive radiator, the C4 offers true full range sound while taking up a minimum of space, thanks to its innovative triangular, corner-hugging shape.</p> <p>As with C5, the speaker cable runs through the cabinet to terminals on the front baffle. Wall/ceiling mounting points are an integrated part of the cabinet which installs horizontally or vertically at room boundaries without brackets.</p> <p>4" woofer + 4" slave 1" silk dome tweeter Aluminium cabinet; black or white finish Full range bass in compact cabinet</p>	£ 541.67	£ 650.00
		
<p>C5 - black or white (pair)</p> <p>The C5 is a two-way speaker with extended bass performance due to the use of an advanced passive woofer.</p> <p>You will experience surprisingly strong sound pressure from the compact aluminium cabinet and the speaker's high sensitivity - even modest-sized amplifiers will enable the speaker to fill your room with quality sound. The tweeter reproduces clean and crisp high frequencies beyond 25 kHz. The tweeter has excellent dispersion as well, which makes it a perfect fit for the woofer. The C5's cable solution is innovative and discreet, as there is no visible cable terminal. Instead, the speaker cable is run in a slot at the back of the cabinet, making the installation pleasing to the eye as well as the ear.</p> <p>5.25" woofer + 5.25" slave 1" silk dome tweeter Aluminium cabinet; black, white & silver finishes Full range bass in compact cabinet</p>	£ 625.00	£ 750.00
		
<p>C5 - aluminium (pair)</p>	£ 608.33	£ 730.00

<p>C5TRM - black, white or aluminium (pair)</p> <p>The new Cornered Audio C5TRM delivers very high output for high impact/low profile home cinema and music applications.</p> <p>Its compact aluminium enclosure houses a 1" horn loaded dome tweeter with robust 5.25" woofer and a 5.25" passive woofer. The C5TRM offers high SPLs and dynamics with excellent clarity, uniform dispersion and bass reproduction down to 50Hz – all from a discreet corner location.</p> <p>5" woofer with very low power compression; 1" horn loaded dome tweeter; Aluminium cabinet; 90 by 90 degree dispersion; Power handling, IEC268: 150W; Power handling, peak: 600W; Sensitivity, 2,83V / 1m: 90 dB; Maximum SPL, long term: 112 dB; Maximum SPL, peak: 118 dB; Frequency response: 55 Hz - 20 kHz; Nominal impedance: 8 ohms; Dispersion: 90 x 90 degree; Weight: 4.8 kg; Measurements (H x W x D): 439 x 213 x 154 mm</p>	£ 750.00	£ 900.00
		
<p>C6 - black, white or aluminium (pair)</p> <p>Equipped with a woofer custom developed in Denmark, the C6 offers excellent sensitivity and clarity.</p> <p>It has very high output and is recommended in combination with a sub. The tweeter has a very low resonance point and offers crisp treble beyond 25 kHz. With superb detail and resolution, the two drive units reproduce a credible 3-dimensional sound stage. The extruded aluminium cabinet is well damped and the triangular shape minimises standing waves and reflections within the cabinet. C6 is the perfect choice for a clear, high output and yet compact speaker system.</p> <p>6.5" woofer 1" silk dome tweeter Aluminium cabinet with MDF baffle High sensitivity</p>	£ 766.67	£ 920.00

<p>C6TRM - black, white or aluminium (pair)</p> <p>The C6TRM is designed with an emphasis on very high output.</p> <p>It features a strong 6.5" neodymium woofer with excellent cooling and a horn-loaded 1" tweeter, cooled by magnetic oil. Both drivers have excellent power handling and very low power compression. They offer superb dynamics making the C6TRM the perfect choice for home cinema installations involving demanding, dynamic program material. The extruded aluminium cabinet is well damped and the triangular shape minimises standing waves and reflections within the cabinet. C6TRM can be used in full range applications, but functions best when supported by a sub.</p> <p>6.5" woofer with neo magnet 1" horn loaded dome tweeter Aluminium cabinet with MDF baffle High sensitivity</p>	£ 1,166.67	£ 1,400.00
		
<p>LS1 - black, white or aluminium (pair)</p> <p>LS1 is a very compact speaker designed to be flown horizontally in compact Line Source applications, flying up to 8 pcs per side.</p> <p>At less than 7 kg per speaker, the LS one offers very high SPL-to-weight and SPL-to-size ratios. High quality drive units combined with state-of-the art-cooling offer consistency in sound quality and SPL over long durations, the closely spaced 1" horn-loaded dome tweeter array producing the output of a horn-loaded design with the clarity of a dome tweeter.</p> <p>6.5" woofer with neo magnet 2 x 1" horn loaded dome tweeters Aluminium cabinet Designed for high SPL applications Silver, white and black colours</p>	£ 1,333.33	£ 1,600.00
