

BasX A-100 compact Stereo Amplifier

The BasX A-100 is a great sounding, compact, and very flexible, stereo amplifier. The A-100 includes features that make it an excellent choice for a wide variety of situations; from driving a small music system in a home or business, to providing audio for a second zone in a larger home theatre installation, or whole house music system. The A-100 also includes a great sounding headphone output, which combines the sonic signature of high-end vintage equipment with the superb performance of modern circuitry, and which offers the ability to drive low-efficiency planar headphones without the need for adaptors and custom cables.

Features

- 50 watts per-channel @ 8 ohms (80 watts per-channel @ 4 ohms)
