

Fixed frame

The Movie Palace UHD 4K Extra Bright is the Lumene screen dedicated to short throw videoprojection.

This fixed frame screen features a microstructured ALR fabric that absorbs ambient light while reflecting the light beam of the projector. It offers a high level of contrast and the best viewing features in a very bright environment. The ultra thin, velvet-lined aluminium frame ensures perfect tension through a multipoint screen attachment system. This technology ensures a completely flat surface by distributing tension more efficiently. The velvet border improves image contrast and eliminates distracting reflections. The Movie Palace UHD 4K Extrabright is easy to install thanks to its safe, fast and reliable clipping system.

Perfect tension

Easy to install

Fast and clipping system

Velvet frame

SPECIFICATIONS

Screen material

High quality LUMENE screen material
ALR fabric (Ambient Light Rejecting)
100x brighter than a classic screen
