

## SVS Prime Wireless Pro Powered Speakers | Transcendent Sound for the Modern Audiophile.

Breathtaking wireless sound from a powered stereo speaker pair. Finally, you can enjoy immersive, uncompromised sound from any source or service, however you want.

Stream Hi-Res audio wirelessly via WiFi, Apple Airplay 2 for iPhones and iOS, and Chromecast for Android phones and other devices. Connects directly to your TV via HDMI and features ample connectivity and control options. 200-watt (50 watts x 4) amplifier and precision tuned electronic crossover deliver powerful dynamics, deep bass, and stunning clarity.

### QUICK SPECS

2-Channel active/passive powered stereo speaker array for pinpoint stereo imaging

200 watt amplifier (50 watts x 4) for stunning output from compact cabinet

Stream Hi-Res audio via WiFi, Airplay 2 for iPhones and iOS, Chromecast for Android phones and other devices

Bluetooth with aptX

HDMI, Line Level (RCA), Optical, 3.5mm AUX, Ethernet Inputs, Subwoofer Output

Control via smartphone/desktop app, front panel and IR remote.

24-bit/192kHz DAC for ultra high-res audio streaming

## **INTRO**

With SVS Prime Wireless Pro, we weren't content with making the best sounding wireless speakers, but rather a solution that competes with the finest sounding speakers of any kind at their price and well beyond. Couple that with an amazing user interface and versatile connectivity options and Prime Wireless Pro appeals to anyone who loves immersive sound.

Sporting a potent 200-watt (50 watts x 4) amplifier, 192kHz/24-bit DAC, and precision tuned electronic crossover; the speakers deliver powerful dynamics, deep bass, and pristine clarity for all your content.

Audiophiles will love that it streams lossless Hi-res Audio wirelessly via Wi-Fi and CD-quality via Apple Airplay 2 for iPhones and iOS, and Chromecast for Android phones and other devices. Enjoy the best quality sound from all your streaming services with no compromises. It's also Bluetooth-enabled.

For a superior soundbar replacement or compact home theater system, SVS Prime Wireless Pro Powered Speakers connect directly to a TV via HDMI with ARC/eARC. For additional devices, there are line level, optical, 3.5mm AUX, and ethernet inputs. Plus, a subwoofer output for deeper, heart-pounding bass.

Bringing it all together is easy control via the smartphone and desktop app, IR remote, voice commands, and a data rich front panel interface with loads of unique features.

Finally, wireless audio meets the Sound R|Evolution.

## **DESCRIPTION:**

### **Transcendent Sound for the Modern Audiophile.**

Inspired engineering breeds reference performance as the SVS Prime Wireless Pro Powered Speakers are challenging the notion that wireless audio is just for background music. The future of Hi-Fi is here.

- True 2-Channel Audio for Convincing and Immersive Stereo Sound
  - Left/Right powered speaker setup delivers true stereo sound with punchy dynamics, massive soundstage, and pinpoint imaging.
  - Hi-Res Audio over Wi-Fi enables lossless streaming for the most discerning audiophiles.
- 200 watt (50 watts x 4) Amplifier for Massive Dynamic Output
  - Potent Class-D amplifier delivers 50-watts to each woofer and tweeter for effortless power and room-energizing slam and impact with revealing clarity. Plays crystal clear even at high volumes with output that far exceeds the cabinet size.
- Digital Electronic Crossover for Refined and Dynamic Sound
  - Maximizes performance of each driver by controlling power delivery and frequency response with absolute precision. The result is pinpoint transient speed and massive dynamic output that belies the compact cabinet size.
- Acoustically Optimized 1" Aluminum Dome Tweeter

- Renders crystal clear highs with lifelike realism, the tweeter's airy presentation reveals every sonic detail with pristine clarity and pinpoint accuracy. An FEA-optimized diffuser ensures broad dispersion for a wide and convincing soundstage.
- High-Output 5.25" Mid-Bass Driver
  - The majority of audio content in music and movies is present in the mid and low frequencies so it's imperative to have a driver capable of producing slam and impact with refinement. Lightweight yet stiff driver materials in the mid-bass driver deliver effortless and unveiling sound with flawless tonal accuracy and chest-thumping bass.
- 192kHz/24-Bit DAC for Hi-Res Streaming over Wi-Fi
  - Sophisticated digital to analog converter renders highest quality playback from all streaming services and connected devices.
- Versatile Connectivity
  - HDMI input with ARC/eARC for Hi-Res stereo sound from your TV
  - Line level, optical, 3.5mm AUX, and ethernet inputs for connecting to a wide range of devices
  - Subwoofer output for deeper, heart-pounding bass
- Smart and Seamless Control
  - Native control via Apple Airplay 2, Chromecast, and Spotify Connect
  - Smartphone, tablet, or PC control with the DTS Play-Fi app
  - Data-rich front panel user interface
  - IR remote
  - Alexa and Hey Google voice commands via supported devices
  - 6 custom presets for instant access to playlists, streaming music services, and more with touch of a button
  - Multi-room/Whole Home Audio compatible with all DTS Play-Fi enabled products

## Tech Info

- **Frequency Response/Acoustic Data**
  - Frequency Response: 42Hz – 25kHz +/-3dB
- **Active Speaker Cabinet Dimensions:**
  - 295mm (H) X 180mm (W) X 228mm (D)
  - 11.61" (H) X 7.09" (W) X 8.96" (D)
- **Passive Cabinet Dimensions:**
  - 295mm (H) X 180mm (W) X 225mm (D)
  - 11.61" (H) X 7.09" (W) X 8.85" (D)
- **Weight:**

- Active Speaker Weight Unboxed: 12.3 lbs (5.58kg)
  - Passive Speaker Weight Unboxed: 11.68 lbs (5.3kg)
  - Packaged Weight System Pack: 28.0 lbs (12.7kg)
- **Package Dimensions**
    - 390mm (H) X 465mm (W) X 296mm (D)
    - 15.35" (H) X 18.31" (W) X 11.73" (D)
- **Driver Specs**
    - 1" Aluminum Dome Tweeter
      - FEA-optimized diffuser for airy and unveiled presentation
      - Aluminum dome for exceptional transient response
    - 5.25" Midrange Driver:
      - Polypropylene cone for excellent stiffness/mass ratio and pistonic behavior
      - Aluminum shorting ring to reduce gap inductance, lower distortion, and enhance high frequency response
      - Cast ABS-fiberglass composite basket ensures precision component alignment and excellent thermal transfer
      - Vented voice coil former minimizes air compression artifacts
- **Amplifier Specs:**
    - Dual Class-D Power Amps for Discrete Driver Bi-amplification
    - 200 watt (50 watt x 4) RMS Power
    - Digital controlled tweeter-to-woofer crossover: 2kHz (12dB/octave slope)
- **Speaker Cabinet Specs:**
    - Finish Options: Piano Gloss Black and Piano Gloss White
    - 2.36" wide-flared rear-firing port
    - Protective cloth grille with pin/cup retention system
    - Elastomer stick-on bumper feet (adds 3mm to height)
- **Wireless Streaming Options**
    - DTS Play-Fi - Lossless 192kHz/24-bit via Critical Listening Mode over WiFi
    - Apple Airplay 2, Chromecast Built-in: CD Quality
    - Bluetooth 5.0 with AAC and aptX
    - Spotify Connect
- **Input Specs**
    - HDMI audio input. Supports ARC and eARC
    - Left/Right RCA Input: Input Impedance: 20K
    - 3.5mm Aux Input: Input Impedance: 20K
    - Toslink Optical Input:
      - S/PDIF receiver works at a wide range of sampling frequencies between up to 96kHz
    - Bluetooth 5.0 with AAC and aptX
    - 6 backlit preset pushbuttons
    - Ethernet

- USB service port also for powering wireless accessories
  - See SoundPath Wireless Audio Adapter
- **Output Specs**
  - Subwoofer Output: 2V MAX
    - Auto Detecting High Pass Filter: Activates High Pass Filter at 80Hz on the speakers when subwoofer detected.
  - Ethernet
- **Cabinet Specs:**
  - Acoustically transparent and FEA optimized grilles minimize diffraction
  - FEA-optimized cabinet and bracing eliminates resonances
  - Chamfered front baffle and flush-mounted drivers reduce edge diffraction and improved on-axis high frequency response
- **General Specifications:**
  - 3.15" wide Front Panel OLED display
    - Displays Source, Artist Name, Song Title, Volume
    - Rich meta data from Wi-Fi and Bluetooth audio sources
  - Switch Mode Power Supply: Auto Switching 100 – 120V / 220 – 240V, 50/60Hz
  - Fuse: 15A/250V
  - Detachable Power Cord
  - IR Remote control and 2 AAA batteries included
  - 8 x Elastomer stick-on bumper feet included
  - Active-Passive Speaker Interconnect Cable: 3m / 10ft Included
  - 15 ft and 20 ft Prime Wireless Speaker System interconnect cables are available upon request.
- **Warranty:**
  - Unconditional 2-Year Warranty
