SB-2000 PRO

SVS

SB-2000 Pro

A CRACKING EXAMPLE of trickle-down technology bringing a performance boost to a mid-range model, SVS's sealed 2000 Pro series woofer partners the app control/parametric EQ system and Intelligent Control features of higher-end siblings with a new 12in driver design and 550W Sledge amplifier. Governed by an Analog Devices DSP engine, it engineers deep, hard-hitting bass from its compact cabinet while remaining controlled and fleet of foot. Choose piano gloss black or black ash finish, and get ready to rumble!
