SB-3000

## SVS SB-3000

CONSIDERING THE SVS SB-3000 utilises a 13in bass driver – engineered specifically for this model – its form factor is delightfully compact. The price tag is agreeable too for a cinema sub that incorporates the smartphone app-based EQ/setup system first debuted in the brand's flagship 16-Ultra Series. A Sledge amplifier (rated at 800W RMS/2.5kW peak) and Analog Devices DSP engine provide the brawn and brains to conjure a bass performance that mixes sheer power and depth with authority and composure. It's small but deadly, and incredible value for money.

### PRODUCT DETAILS

**PRICE** £1275

**TYPE** 13in sealed subwoofer

**WEIGHT** 24.7kg

**DIMENSIONS** (WxHxD)  
385 x 397 x 451mm
