

RETAIL Price List - Valid From May 2020

Balanced Audio Technology (BAT) designs and builds high-end audio separates offering a distinctive combination of superb sound, advanced engineering and stellar construction. Defined by the principle that balanced circuits deliver better performance and celebrated for the cutting-edge design of advanced vacuum-tube technology, BAT's globally acclaimed product line-up features preamplifiers, power amplifiers, DACs and phono stages. Proprietary tech includes the 'Unistage' circuit deployed by BAT pre-amps, which amplifies the incoming signal only once (unlike the multiple gain stages in common use), and an intelligent automatic-biasing circuit, which endows BAT's vacuum-tube power amplifiers with plug-and-play simplicity. The latest REX 3 Series products serve as ultimate proof of Balanced Audio Technology's high-end virtuosity.

DACS	Retail Ex VAT	Retail Inc VAT
<p>REX 3 DAC</p> <p>REX DAC demonstrates how lifelike and involving digital playback can be when done to the nines. This reference-setting instrument's audiophile credentials arise from state-of-the-art engineering in both the digital and analogue domains. The digital design, from Andreas Koch, runs at an extraordinarily high clock rate to allow for the gentlest and least-intrusive filter at its output. The analogue design, from Victor Khomenko, is a high-current vacuum-tube output stage that alone would exceed the performance of most reference tube preamplifiers. The marriage of these designs conveys the most natural, analogue-like rendition of digital recordings.</p> <p>High current vacuum-tube output 11.2 MHz DSD DAC with amorphous core transformer coupled output stage</p> <p>Weight: 16.3 kg</p> <p>Dimensions (mm): 483 x 146 x 394</p>	£ 16,666.67	£ 20,000.00

Line Stage Preamplifiers		
<p>VK-33</p> <p>Building upon the heritage of our stellar VK-32 model, the VK-33 preamplifier incorporates changes to its power supply formerly reserved for our Special Edition models. SE power supply transformers, for example, provide a marked increase in dynamics and speed. Just as in the VK-33SE and VK-53SE models, a beautiful new industrial design complements the aesthetic design of this outstanding preamplifier model.</p> <p>Vacuum tube current sources & 6922 gain stage</p> <p>Fully balanced design</p> <p>Shunt volume control</p> <p>Optional phono module</p> <p>Superb user interface</p> <p>Weight: 17.2 kg</p> <p>Dimensions (mm): 483 x 146 x 394</p>	£ 5,829.17	£ 6,995.00

RETAIL Price List - Valid From May 2020

Line Stage Preamplifiers	Retail Ex VAT	Retail Inc VAT
<p>VK-33SE</p> <p>The VK-33SE is an extraordinary, high performance preamplifier that we are proud to place on the same podium with the VK-53SE and REX 3. All you need to do is listen...</p> <p>Optional Phono Module 46/60dB gain (Factory install only) 4x 6H30 SuperTube Preamp, 2x 6C19 current source tubes, transformer coupled output stage Weight: 18.1 kg Dimensions (mm): 483 x 146 x 394</p>	<p>£ 8,329.17</p>	<p>£ 9,995.00</p>
<p>VK-53SE</p> <p>The VK-53SE is the finest single-chassis preamplifier ever offered by Balanced Audio Technology. It features a transformer-coupled, high-current, single gain-stage topology. The transformer-coupled outputs catapult the performance of this fully balanced, zero-feedback design to a higher level. These transformers replace BAT's venerable Six-Pak of output capacitors with custom-designed amorphous core output transformers. Each is encapsulated within a mu-metal shield for the ultimate in signal purity and noise isolation.</p> <p>8x 6H30 SuperTube Preamp, transformer coupled output stage Weight: 20.4 kg Dimensions (mm): 483 x 146 x 394</p>	<p>£ 12,495.83</p>	<p>£ 14,995.00</p>
<p>REX 3 Preamplifier</p> <p>The culmination of nearly two decades of design, the fully balanced REX 3 preamplifier represents the pinnacle of BAT's purist approach to building a statement control centre without peer. Featuring a vacuum-tube power module and separate control module, this ground-breaking two-box component features a transformer-coupled output stage (aka T-REX). The latter replaces BAT's Six- Pak of output capacitors with custom-designed amorphous core output transformers. Sonically, they offer greater dynamics, transparency, top-to-bottom extension, and a more organic portrayal of music.</p> <p>Reference Dual Chassis 8x 6H30 SuperTube Preamp, separate power and control modules. Amorphous Core transformer coupled output stage Weight: 35.4 kg Dimensions (mm): 483 x 146 x 394</p>	<p>£ 25,000.00</p>	<p>£ 30,000.00</p>

RETAIL Price List - Valid From May 2020

Phono Preamplifiers	Retail Ex VAT	Retail Inc VAT
<p>VK-P6SE</p> <p>Balanced Audio Technology's VK-P6SE improves upon the startlingly good VK-P6 by adding a Special Edition gain stage configuration and the same Six-Pak oil-filled output capacitors employed by the reference VK-P12. Your records, your system, and your emotional satisfaction will be greatly rewarded with the VK-P6SE in the chain.</p> <p>6922 + 6C45 Tubes - SIX-PAK capacitor coupled output stage - 50/55dB gain</p> <p>Weight: 16.8 kg</p> <p>Dimensions (mm): 483 x 146 x 394</p>	£ 4,995.83	£ 5,995.00
		
<p>VK-P12SE</p> <p>A Special Edition version of BAT's VK-P12 phono stage, VK-P12SE includes numerous engineering improvements to offer greater information retrieval and supreme musical presentation. The first gain stage is completely revised to provide a substantially lower noise floor. In addition to the transformer-coupled output transformers, a reconfigured output stage incorporates four high-gain 6C45 tubes. They provide high-current and low-output impedance, establishing superb drive and crystalline transparency. These enhancements result in a phono stage with improved silence in the quietest musical passages, unfettered dynamic ease, and a grand sense of scale. For listeners that may want even more performance, VK-P12SE is fully upgradeable to the VK-P12SE SuperPak.</p> <p>6922 + 6C45 + 6SN7 Tubes - Transformer Coupled - Built-in SUT - 45/60/65/80dB gain</p> <p>Weight: 19.5 kg</p> <p>Dimensions (mm): 483 x 146 x 394</p>	£ 8,329.17	£ 9,995.00
		
<p>VK-P12SE SPK (VK-P12SE with SuperPak output stage)</p>	£ 10,412.50	£ 12,495.00
Options / Accessories		
Preamplifier Remote System (older preamps)	£ 625.00	£ 750.00
VK-P3 Phono Module (VK-3iX, 20, 31, 32, 42)	£ 833.33	£ 1,000.00
VK-P20 Phono Module (VK-3000SE, 23SE, 43SE)	£ 833.33	£ 1,000.00
VK-33SE Series XPAK	£ 541.67	£ 650.00
REX3 preamplifier XPAK	£ 1,250.00	£ 1,500.00

RETAIL Price List - Valid From May 2020

Amplifiers - Tube Power Amplifiers

VK-56

The Balanced Audio Technology VK-56 represents the meticulous application of modern design principles to the development of a compact, affordable, and supremely easy-to-use vacuum-tube power amplifier that sets a new standard for musicality in its class.

110W Mono tube | 55WPC Stereo

VK-56SE

VK-56SE uses a 6C33C-B triode output tube that offers many times the current delivery of the 6550/KT90 tube variant used in most traditional tube amplifiers. VK-56SE also incorporates vacuum tube current sources for the first gain stage to provide an unforgettably soulful portrayal of harmonic texture and instrumental timbre. Your recordings will sound more alive while simultaneously yielding greater finesse, grace, and inner detail.

110W Mono tube | 55WPC Stereo | 6H30 SuperTube current sources, SuperPak power supply

Weight: 22.7 kg

£ 7,079.17

£ 8,495.00

VK-76SE

The highly anticipated successor to VK-75, the empire-building VK-76SE features a completely revised power supply, fuse-less protection circuit, active current sources for its two gain stages, intelligent auto-bias circuit with LED indicators, and high-current, all-triode, zero-feedback, fully balanced topology.

150W Mono tube | 75 WPC Stereo | zero global feedback, fully symmetrical circuit

Weight: 40.8 kg

Dimensions (mm): 432 x 203 x 610

£ 11,662.50

£ 13,995.00

RETAIL Price List - Valid From May 2020

Amplifiers - Tube Power Amplifiers	Retail Ex VAT	Retail Inc VAT
<p>REX 3 Stereo</p> <p>The all-triode REX 3 power amplifier represents a technological tour de force of modern engineering applied to vacuum-tube power-amplifier design. From the plug-and-play simplicity provided by its auto-biasing and electronic protection circuits, to the palpable illusion of recreating the original musical event in your home, the REX 3 combines high-power output, beautiful midrange texture, and great extension at the frequency extremes.</p> <p>Reference 160W Mono tube Reference 80 WPC Stereo zero global feedback, fully symmetrical circuit</p> <p>Weight: 46.3 kg</p> <p>Dimensions (mm): 432 x 229 x 610</p>	£ 16,666.67	£ 20,000.00
<p>REX 3 Mono Pair</p>	£ 33,333.33	£ 40,000.00
Amplifiers - Solid State Power Amplifiers		
<p>VK-255SE</p> <p>The VK-255SE power amplifier represents Balanced Audio Technology's hallmark out-of-the box approach to audio circuit design. Unlike most solid-state amplifiers that feature four or more gain stages in a high-feedback push-pull configuration, the VK-255SE features only two gain blocks in a high-power, zero feedback, and purely symmetrical design.</p> <p>200W Mono 150 WPC Stereo N-Channel MOSFET Amp with Super-Pak power supply</p> <p>Weight: 34 kg</p> <p>Dimensions (mm): 483 x 165 x 406</p>	£ 7,495.83	£ 8,995.00

RETAIL Price List - Valid From May 2020

Amplifiers - Solid State Power Amplifiers	Retail Ex VAT	Retail Inc VAT
<p>VK-655SE</p> <p>The fully balanced VK-655SE power amplifier is the ultimate expression of BAT amplifier engineering. A true dual-mono component featuring independent channel assemblies, power transformers, and separate power cords for the left and right channels, the purist approach-based VK-655SE yields maximum soundstage width and depth.</p> <p>400W Mono 300 WPC Stereo N-Channel MOSFET Amp with Super-Pak power supply</p> <p>Weight: 54.4 kg</p> <p>Dimensions (mm): 483 x 241 x 597</p>	£ 13,745.83	£ 16,495.00
<p>Amplifiers - Hybrid Integrated Amplifier</p> <p>VK-3000SE</p> <p>The VK-3000SE's elegant design and technical prowess ultimately exist to serve the music. For any integrated amplifier, the crucial test is its sound, and the performance afforded by the VK-3000SE is breathtaking—and pure BAT. “Open,” “delicate,” “smooth,” and “powerful” immediately come to mind when describing its sonic characteristics.</p> <p>150 WPC Integrated Stereo Amplifier with 6H30 SuperTube Unistage™ Linestage / Solidstate Amp</p> <p>Weight: 22.7 kg</p> <p>Dimensions (mm): 483 x 146 x 394</p>	£ 6,662.50	£ 7,995.00
