

RETAIL Price List - Valid From October 23

Emotiva is a US AV design specialist founded on the desire to offer audiophile performance, excellent features and user-friendly ergonomics at prices significantly below those of comparable products. Emotiva has used its considerable experience in designing for other brands to identify and remove manufacturing inefficiencies while applying its innovative expertise to include the latest feature sets and optimise AV performance. The result is more from your favourite music and films for less: an unbeatable blend of amazing audio, video and price.

RMC-1

Flagship AV processor that supports full 4K UHD video, with high speed video switching, in addition to the latest Dolby Atmos and DTS-X object-oriented surround sound formats. The RMC-1 includes 16 balanced channels, an all analogue preamplifier section, precision 32-bit AD/DA conversion, and an advanced 4K UHD video management system. Eight HDMI inputs and dual HDMI outputs support 2.0b and HDCP 2.2, ensuring theatre-like video quality from all 4K UHD HDR10 sources and equipment.

Dolby Atmos (up to 9.1.6); Dolby TrueHD (up to 7.2); Dolby Digital Plus; Dolby Digital; DTS:X (up to 7.1.4); DTS-HD Master Audio; DTS-HD High Resolution Audio; DTS 5.1; Multi-Channel PCM.

Analogue Audio Inputs: (1) pair stereo: balanced XLR; (3) pairs stereo: unbalanced; machined gold-plated RCA connectors.

Analogue Audio Outputs: (1) set 16 channels balanced XLR; (1) pair stereo: analogue line level Zone 2 output unbalanced; (1) high quality 1/8" stereo headphone output.

Digital Video Inputs and Outputs: (8) HDMI digital video inputs HDMI 2.0b with HDCP 2.2 (all inputs support HDMI 2.0b and HDR, including dynamic HDR and Dolby Vision); (2) HDMI digital video outputs HDMI 2.0b with HDCP 2.2 (one with CEC and ARC), both outputs support HDMI 2.0b and HDR - including dynamic HDR and Dolby Vision.

Digital Audio Inputs: (4) Toslink optical S/PDIF digital audio (up to 24/192); (4) Coax (RCA) electrical S/PDIF digital audio (up to 24/192); (1) AES/EBU (XLR) digital audio; (1) USB Type B digital audio (UAC2 USB audio up to 24/192k).

Digital Audio Outputs: (1) Toslink optical S/PDIF digital audio; (1) Coax (RCA) electrical S/PDIF digital audio.

Other Inputs:

(2) USB Type A digital data inputs (for firmware updates and future enhancements); (1) Ethernet port (RJ-45) (network connection for Dirac and remote control applications); (3) Expansion slots for additional optional custom Input/Output modules

Dimensions WxHxD mm (inc feet): 432 x 191 x 394

XPA GEN3

Fully Modular Amplifier Platform.

A fully modular using independent, fully discrete, dual differential, high current, short signal path Class A/B amplifier modules.

Wideband, low distortion amplifier design.

Optimised Soft-Switch Class H™ power supply topology. Heavy steel 4RU chassis with milled aluminum faceplate. Gold plated five-way speaker binding posts with clear shields.

Solid machined gold-plated RCA input connectors. Choice of balanced or unbalanced inputs.

Remote trigger input and output.

Power Per Channel: All Channels Driven; THD <0.1%; into 8 Ω.

Dimensions (W x H x D mm): 432 x 203 x 483 (including feet); 432 x 178 x 483 (without feet).

Assembled in the USA with Globally Sourced Components

Two channel: (300W RMS per channel)	£1,249.17	£1,499.00
Three channel: (275W RMS per channel)	£1,415.83	£1,699.00
Four channel: (260W RMS per channel)	£1,665.83	£1,999.00
Five channel: (250W RMS per channel)	£1,832.50	£2,199.00
Six channel: (225W RMS per channel)	£2,082.50	£2,499.00
Seven channel: (200W RMS per channel)	£2,290.83	£2,749.00

XPA-9 Gen 3

Nine Channel Power Amplifier.

The XPA-9 Gen3 is a nine-channel version of Emotiva's latest generation of modular audiophile power amplifiers. It features five 300W single channel amplifier modules and two 65W two channel amplifier modules for a total of five channels at 300W/channel and four channels at 65W / channel. Ideal for driving 7.1.2 or 5.1.4 systems, or a 7.1 / 7.2 system that includes a pair of smaller speakers in a second zone.

Optimised Soft-Switch Class H™ power supply topology.

Switched Mode Power Supply (SMPS).

Fully modular construction.

Heavy steel 4RU chassis with milled aluminium faceplate.

Gold plated five-way speaker binding posts with clear shields.

Choice of balanced or unbalanced inputs.

Remote trigger input and output.

Designed, Assembled, and Tested in the U.S.A. Five year warranty.

Dimensions (W x H x D mm unboxed, incl feet): 432 x 203 x 483.

Weight (unboxed): 24 kg.

XPA-11 Gen 3

Eleven Channel Power Amplifier.

The XPA-11 Gen3 is an eleven-channel version of Emotiva's latest generation of modular audiophile power amplifiers. It features three 300W single channel amplifier modules and four 65W two channel amplifier modules for a total of three channels at 300W / channel and eight channels at 65W/channel.

Ideal for driving 7.1.4 or 5.1.6 systems or 7.1 / 7.2 channel system that includes two pairs of smaller speakers in other zones.

All other features as XPA-9 Gen 3 (above).

XPA-11 Gen 3

£2,290.83

£2,749.00

XPA HC-1 Monoblock power amplifier

The new XPA HC-1 is a true monoblock power amplifier and features a single high-power XPA Gen3 amplifier module, powered by its own dedicated massive switch mode power supply (SMPS). The chassis on the XPA HC-1 is the same height and depth as other XPA Gen3 models, but half as wide, making it easy to position an XPA HC-1 near each of your main speakers or arrange several of them side by side in your equipment rack. We've kept the sides clear of ventilation slots, so there's no problem setting them directly next to each other. Consider using a single XPA HC-1 to power your high-end centre channel, or a pair to power your front left and right speakers, or a set of three to power all three critical front channels. And, of course, a full set of XPA HC-1 amps, powering all of your speakers, would be tough to beat.

1 High-Powered Single-Channel Module

300 watts RMS into 8 Ohms; 600 watts RMS into 4 Ohms

XPA HC-1 Monoblock power amplifier

£874.17

£1,049.00

RETAIL Price List - Valid From October 23

XPA Gen3 Differential Reference™ Amps

The XPA-DR amplifier modules use a differential input stage with a cross-linked current source driving a balanced voltage amplification stage and a complementary, fully discrete output stage. A pair of these modules are dedicated to each channel to deliver a wide bandwidth, low distortion performance from high-resolution sources, driving even difficult loudspeakers with absolute authority and control.

Audiophile, fully differential, low distortion amplifier design.

Optimised soft-switch Class H™ power supply topology.

Switched Mode Power Supply (SMPS).

Heavy steel 4RU chassis with milled aluminium faceplate.

Full five-year warranty.

Dimensions (W x H x D mm): 432 x 203 x 483.

Unboxed weight: 16.1 kg.

BasX A2m

The BasX A2m is a flexible stereo amplifier that combines excellent audio performance with several unique and extremely useful features. It delivers 50 watts / channel into 8 Ohms, and 90 watts / channel into 4 Ohms, Class A/B with a rated THD+N of < 0.1%, and an A-weighted S/N ratio of 112 dB. The A2m can be used as the foundation of a great small stereo system – with or without a separate preamp. Its small size makes it the ideal solution for situations where space is limited or where multiple two-channel amplifiers will be used to power multiple different zones or sets of surround or height speakers. A rear-panel switch allows the A2m to be used either as a power amplifier, with a fixed gain, or as an integrated amplifier, with higher gain, and a convenient front panel volume control. The A2m also features unique headphone output circuitry which is able to deliver great sound quality from a wide variety of both normal and difficult to drive headphones.

Dimensions W x H x D mm (not inc connectors): 209 x 76 x 362

BasX A2m

£265.83

XDA-3

The XDA-3 is an audiophile quality two-channel digital-to-analogue converter (DAC), with both digital and analogue inputs. It can be used as both a DAC and control centre or preamp.

Features: DAC / preamp capabilities with both digital and analogue inputs, an analogue resistor ladder volume control, and a high-quality current feedback headphone amplifier.

Four digital inputs (2 Coax and 2 Optical) which support up to 24/192k stereo PCM audio.

One high-performance USB digital input that supports stereo PCM digital audio up to 32/768k, DoP DSD audio up to DSD256, and native DSD audio up to DSD512.

One HDMI-ARC input which accepts digital audio directly from your TV. Audiophile quality ESS ES9038Q2M SABRE32 Reference DAC chip with ESS Hyperstream® II DAC.

True, fully balanced fully differential signal path from the DAC chip to the balanced outputs for digital audio signals. True, fully balanced fully differential signal path from balanced inputs to balanced outputs for balanced analogue inputs.

Machined aluminium full function remote control.

Dimensions W x H x D mm: 432 x 57 x 343 (includes feet and connectors).

ERC-4

Differential Reference CD Player and Transport

The Emotiva ERC-4 Differential Reference CD Player and Digital Transport combines a high-quality digital CD Transport and a superb balanced DAC in one convenient package.

CD Player, Transport And DAC – All In One

Dedicated audio CD player, playing standard Red Book audio CDs, hybrid SACDs and MP3 digital audio files from both CD-R and DVD-R media

The DAC supports stereo PCM digital audio up to 24/192k

Analogue Outputs: 1 pair stereo unbalanced; 1 pair stereo balanced

Digital Audio Outputs: 1 Optical S/PDIF (Toslink), 1 Coax S/PDIF, 1 AES/EBU

Digital Audio Inputs: 1 Optical S/PDIF (Toslink), 1 Coax S/PDIF

Dimensions (W x D x H mm): 432 x 356 x 102. Weight: 11.7 kg.
