

**Confidential Retail Price List - Valid From October 2024**

Toroidal isolation power conditioners by Torus Power are the world's finest clean power source for audio, video, automation and control systems. Dramatically increasing performance levels of connected AV components from video displays to speakers, Torus Power Isolation Transformers utilise Plitron Manufacturing's patented NBT technologies and medical-grade toroidal isolation transformers to eliminate virtually all power-line noise artifacts and protect equipment from damaging AC power line events, while increasing system reliability and extending product life.

The TOT MINI and TOT MAX are ultra-compact Toroidal Isolation power transformers, and the most affordable products in the Torus line-up. The compact footprint and sloped face of TOT models make them convenient for use in almost any situation. They look sharp on a component shelf or can be located elsewhere when space is at a premium.

- Toroidal Isolation
- Noise Filtering
- High Instantaneous Current Capability

**TOT MINI**

Rated at 3 amps, the TOT MINI is ideal to provide clean power to Audio/Video systems, projectors, flat panels, powered speakers, media/ source players, processors, or network devices.

**TOT MAX**

Rated at 8 Amps, the TOT MAX can provide current to demanding power hungry systems including substantial power amplifiers.

TOT MINI			<b>£1,916.67</b>	<b>£2,300.00</b>
TOT MINI with Series Mode Surge Suppression included			<b>£2,333.33</b>	<b>£2,800.00</b>
TOT MAX			<b>£2,458.33</b>	<b>£2,950.00</b>
TOT MAX with Series Mode Surge Suppression included			<b>£2,875.00</b>	<b>£3,450.00</b>
TOT FP 12 (B/S) Deluxe 12" faceplate for TOT Max & Mini (Black or Silver)			<b>£95.00</b>	<b>£114.00</b>
TOT FP 19 (B/S) 19" rackmount faceplate kit for TOT Max & Mini (Black or Silver)			<b>£150.00</b>	<b>£180.00</b>

**RM Series**

The original Torus Power models in the RM series remain unparalleled for performance, protection, and value. A popular model in the RM series is the RM 16 UK. A smaller model RM 8 UK is ideal for mid-size systems, while the larger custom installation model, rated 30 Amp, provides clean, protected power for the largest custom installed systems.

- Toroidal Isolation
- Noise Filtering
- High Instantaneous Current Capability
- Lightning and Surge Protection

			Retail ex VAT	Retail inc VAT
RM8 3U; 8A; outlets 5			£5,583.33	£6,700.00
RM16 4U, 16A, outlets 6			£7,541.67	£9,050.00
RM30 4U, 30A, outlets 6			£12,500.00	£15,000.00

**Wall Mount RM Series**

Torus Power Wall Mount (WM) Models provide great flexibility for custom installations, and new construction. Dedicated lines can be run to install the power outlets where needed. Select the appropriate power level – ratings of 30A and 50A. All models supplied with SMSS (Series Mode Surge Suppression), as well as Output Control Relays. TVSS (Transient Voltage Surge Suppression) is available on all models.

- Features:
- Toroidal Isolation
  - Noise Filtering
  - High Instantaneous Current Capability
  - Series Mode Surge Suppression

**AVR ELITE Series**

All Torus Power AVR ELITE series models are a full-feature state-of-the-art power transformer, isolating and protecting your system. Like all Torus Power products, the AVR ELITE series provides true isolation (using massive toroidal transformers) and protects all connected equipment from the risk of severe power line surges using series-mode surge suppression.

Torus Power Connect enables installers or users to remotely manage an AVR ELITE and AVR-2 ELITE via web browser on a computer, smart phone or tablet.

**Features:**

Torus Power Connect

Toroidal Isolation provides ultimate clean power performance  
Voltage regulated to 120V (+/- 4V). For 220V-240V input models the regulation is +/- 8V.

All features of the AVR Series

Series Mode Surge Suppression protects against lightning, surges, spikes etc.

AVR2 ELITE added/enhanced Features:

Individually addressable outlet zones for control and monitoring

Power-up sequencing with selectable delay time between zones

Scheduling features allows automatic control (on/off) of any outlet zone. Schedule remains active when internet connection is lost, if system power maintained

Schedule up to 6 events per day per zone

Automatic reboot feature allows remote restart of routers and modems if internet connection lost

Torus Power Wall Mount (WM) Models provide great flexibility for custom installations, and new construction. Dedicated lines can be run to install the power outlets where needed. Select the appropriate power level – ratings of 30A and 45A. All models supplied with SMSS (Series Mode Surge Suppression), as well as Output Control Relays. TVSS is available on all models.

All WM Series models are available with a Transient Voltage Surge Suppression (TVSS) device built into its signal path. The UL certified panel TVSS responds in under 5 nano-seconds and manages surges up to 80,000 Amps. The TVSS also offers additional noise filtration of EMI and RFI (40 dB typical).

Torus Power Connect enables installers or users to remotely manage an AVR ELITE and AVR-2 ELITE via web browser on a computer, smart phone or tablet.

Features:

Torus Power Connect

Toroidal Isolation

Noise Filtering
