Projectors

DLA-NZ900BE projector

Features JVC's newest 8K scaling engine that drastically improves the projector's sharpness and detail across a wide range of content, including 8K (8192 x 4320 pixels) sources.

2nd Generation 8K/e-shiftX technology reproduces 8K image quality

New BLU-Escent Laser Light Source

3rd Generation 0.69-inch 4K D-ILA (4096 x 2160) device x 3.

High brightness of 3,300 lm provides vibrant and dynamic images

Native Contrast Ratio of 150,000:1 translates to a spectacular Dynamic Contrast Ratio of ∞ :1

2x HDMI (48 Gbps, HDCP 2.3) inputs, supporting 8K60P and 4K120P input signals

HDR10+

18-element, 16-group all-glass 100mm diameter high-quality lens.

Wide Colour Gamut above exceeds DCI/P3 spec

Clear Motion Drive supporting 4K60P (4:4:4) signal

Low Latency Mode

ISF C3 (Certified Calibration Controls) mode

Colour Management System with 6-axis Matrix

Auto-Calibration Function using an optical sensor.

New picture mode "Vivid" for SDR Images

DML (Display Mastering Luminance) adjusts/sets the dynamic range for better HDR experience

Product Dimensions (WxHxD): 500 x 234 x 528 (mm)

Product Weight 25.3 Kg

Projectors

DLA-NZ700 D-ILA Projector

Completely redesigned interior and exterior results in world's smallest native 4K projector.

Features:

3rd Generation 0.69-inch 4K D-ILA (4096 x 2160) device x 3

New BLU-Escent Laser Light Source

High brightness of 2,300 lm provides vibrant and dynamic images

New 80mm, 15-element, 11-group high-quality lens

Native Contrast Ratio of 80,000:1 translates to a spectacular Dynamic Contrast Ratio of ∞ :1

2x HDMI (32 Gbps, HDCP 2.3) inputs, supporting 4K60P input signals

HDR10+ contains the metadata of the producer's intentions for each scene, and with such data, the projector is able to automatically reproduce images as the creator intended.

Frame Adapt HDR dynamically tone maps any HDR10 content frame-by-frame or scene-by-scene and automatically performs adjustment to achieve optimal images. It includes improved gamma processing accuracy from 12- to 18-bit equivalent to reproduce smoother and finer gradation.

Auto Tone Mapping function automatically adjusts settings for optimum HDR10 image quality.

FILMMAKER MODE™ that faithfully recreates the creator's intentions.

For easy reproduction, the projector switches automatically to HDR picture mode when HDR10 signals are received.

ISF C3 (Certified Calibration Controls) mode to reproduce excellent picture quality optimized for specific environments

Color Management System with 6-axis Matrix

Eight settings of Installation Mode include Lens Control, Pixel Adjustment, Mask, Anamorphic on or off, Screen Adjust, Installation Style, Keystone, and Aspect; stored installation modes for various environments can be called up.

Wide Colour Gamut above exceeds DCI/P3 spec creating saturated, beautiful images that come to life.

Auto-Calibration Function using an optical sensor.

New picture mode "Vivid" for SDR Images

DML (Display Mastering Luminance) adjusts/sets the dynamic range for better HDR experience

LX-NZ30 PROJECTOR LCoS chipset, lamp powered 4K D-ILA projector. Perfect for upscaled high frame rate gaming and home theatre in dedicated environments and bright rooms. Displaying detailed 4K/3840 x 2160 pixel resolution, it uses a new high-power BLU-Escent light source which delivers 3,300 lumens and is rated for 20,000 hours of operation. Both HDR10 and HLG formats are supported with automatic picture mode selection. Available in black or white as LX-NZ30BE / LX-NZ30WE Features: High efficiency BLU-Escent laser light source delivers 3,300 lumens and 20,000-hour life Supports HDR (High Dynamic Range) with rich video content Smooth video and low latency with support for high frame rate (up to 1080P/240Hz) In addition to dual HDMI Inputs (HDCP 2.2), the LX-NZ30 offers a variety of new connectivity options: DisplayPort 1.2a input allows direct connection from a suitably equipped PC and supports a wide range of resolutions and refresh rates; USB Direct Connect; both RS232C and LAN Control Ports; 12V Trigger Port Equipped with a lens shift of $\pm 60\%$ vertical, $\pm 23\%$ horizontal, and 1.6X zoom Extensive geometric distortion correction for ease of installation High performance Dynamic Dimming Control: the laser light source controls the light output instantaneously, providing dynamic brightness adjustment with less delay compared to a conventional mechanical aperture 0.47inch DMD™ enables high definition 4K display Compact cabinet available in black or white External Dimensions (W x H x D) mm: 405 x 146 x 341 Weight: 5.9kg
