### Tube Power Amplifiers

#### REX 3 Amplifier

The all-triode REX 3 power amplifier represents a technological tour de force of modern engineering applied to vacuum-tube power-amplifier design. From the plug-and-play simplicity provided by its auto-biasing and electronic protection circuits, to the palpable illusion of recreating the original musical event in your home, the REX 3 combines high-power output, beautiful midrange texture, and great extension at the frequency extremes.

Reference 160W Mono tube | Reference 80 WPC Stereo | zero global feedback, fully symmetrical circuit

W x H x D mm: 431 x 228 x 609, 46kg

REX 3 All Aluminium Tube Mono Power Amplifier - Monoblock pair

£41,666.67 £50,000.00

REX 3 All Aluminium Tube Power Amplifier - Stereo each

£20,833.33 £25,000.00

#### VK-80t Amplifier

The new VK-80t power amplifier features a fuse-less protection circuit, active current sources for its two gain stages, intelligent auto-bias circuit and high-current, all-triode, zero-feedback, fully balanced topology. Stereo or monoblock operation.

120W Mono Tube | 60WPC Stereo | Symmetrical single-ended bridge design

All triode signal path from input to output

W x H x D mm: 432 x 203 x 406, 22kg

VK-80t Tube Stereo/Mono Power Amplifier - Stereo each

£8,333.33 £10,000.00

### Solid State Power Amplifiers

#### REX 300 Power Amplifier

The REX 300 solid-state power amplifier, sounds very much like the brother of the REX 500. Further tuning of the REX 300 power supply results in the introduction of the fourth-generation of BAT's SuperPak topology. The amp employs the same split power supply topology (Twin Path) as REX 500, while twin gain stages feature ultra-high current delivery to achieve spectacular transparency and dynamic realism. REX 300 can be ordered as either a stereo amplifier or as a monoblock.

200WPC/8Ω, 400WPC/4Ω | N-Channel MOSFETs used throughout | SuperPak Quattro capacitor pack

W x H x D mm: 483 x 165 x 457, 31.7 kg

REX 300 Solid State Power Amplifier - Monoblock pair

£25,000.00 £30,000.00

REX 300 Solid State Power Amplifier - Stereo each

£12,500.00 £15,000.00

## RETAIL PRICE LIST - Valid From August 2025

### Solid State Power Amplifiers

#### REX 500 Power Amplifier

Flagship solid-state power amplifier. True dual-mono design with independent channel assemblies, power transformers, and separate power cables for the left and right channels. The gain stages of REX 500 feature the highest current delivery ever achieved in a Balanced Audio Technology design. REX 500 also employs a new power supply topology and a fuse-less protection circuit.

Output per channel at 8Ω/4Ω: 500W / 1000W

W x H x D mm: 483 x 254 x 600, 63kg

### Integrated Amplifiers

#### VK-80i Tube Integrated Amplifier

The VK80i tube integrated packages BAT's reference engineering and build quality into its most compact form ever. The balanced design shares many attributes with the top-of-the-range REX 3, featuring the same 6C33 high current triode output tube and a stunning all-aluminium chassis. With 55 watts per channel of full triode high-current power, the VK80i will drive nearly any speaker with authority and ease.

55 WPC | Integrated Stereo Amplifier with 6C33C fuse-less protection circuit and autobiasing

W x H x D mm: 431 x 203 x 406, 20.4kg

VK-80i Tube Integrated Amplifier

£8,333.33

£10,000.00

## RETAIL PRICE LIST - Valid From August 2025

### Solid State Preamplifiers

#### VK-85 Preamplifier

Introduced simultaneously with the REX 300 power amplifier, the VK-85 solid-state preamplifier blurs the lines between the finest tube and solid-state sound. Power supply incorporates the same fourth-generation SuperPak used in REX 300. Unistage design inc N-Channel MOSFET devices.

Inputs: 3 XLRs + 2 RCAs | Outputs – Main 2 XLRs, Tape 1 RCA

W x H x D mm: 483 x 146 x 394, 18.1 kg

### Tube Preamplifiers

#### REX 3 Tube Preamplifier

The culmination of nearly two decades of design, the fully balanced REX 3 preamplifier represents the pinnacle of BAT's purist approach to building a statement control center without peer. Featuring a vacuum-tube power module and separate control module, this groundbreaking two-box component features a transformer-coupled output stage (aka T-REX). The latter replaces BAT's Six-Pak of output capacitors with custom-designed amorphous core output transformers. Sonically, they offer greater dynamics, transparency, top-to-bottom extension, and a more organic portrayal of music.

Reference Dual Chassis 8x 6H30 SuperTube Preamp, separate power and control modules. Amorphous Core transformer coupled output stage

W x H x D mm: 482 x 146 x 394, 35.3kg

#### REX 3 Tube Preamplifier (2 piece)

£30,000.00

#### VK-90 Tube Preamplifier

VK-90 uses eight 6H30 SuperTubes to form an extraordinarily high-current, lowimpedance drive engine. VK-90's signal is effectively transmitted through only one gain stage. The Unistage™ circuit provides the ultimate simplicity of amplifying the incoming signal only once, while using no global feedback to double back on the straight-through signal integrity.

W x H x D mm: 482 x 146 x 394, 19kg
