SVS Powered Cylinder Subwoofers

With just a 16.5" diameter, no other family of subwoofers provides more bass performance per square inch of floor space. This unique and proprietary cylinder design utilises vertical space in order to achieve perfectly deep-tuned bass. With a sleek footprint, these cylinder subwoofers fit conveniently into any theatre room without sacrificing performance. A bottomfiring, long-stroke driver provides a low centre of gravity and excellent stability. The exclusive integrated amp-mount provides a secure and elegant platform for our sophisticated DSP amplifiers. Complete with resonance-free grille.

PC-2000 Pro (Black Gloss)

Down-firing 12" high-excursion SVS driver
Rear-firing 4" port

SVS Ultra Evolution Speakers

Ultra Evolution is the new flagship series representing the culmination of advancements in SVS audio design to achieve performance that transcends its price class. Features seven new models, including three floorstanding tower speakers, two bookshelf speakers, 3-way center channel, and Ultra Elevation height effects/surround speaker.

Ultra Evolution Pinnacle

3-way Floor-Standing Tower Loudspeaker
Features: Acoustically Centred Time Alignment Cabinet Architecture I"
Diamond Coated Aluminium Dome Tweeter
Quad 8" Glass Fibre Woofers in Force-Balanced Array
Dual 5.25" Glass Fibre Composite Midrange Drivers
Dual 3" wide-flared rear-firing ports
Frequency Response: 24Hz to 40kHz (+/-3 dB)
Nominal Impedance: 6 ohms
Sensitivity: 88dB (2.83V @ 1 metre full-space, 300Hz – 3kHz) Recommended amplifier power: 20 – 300 watts
Piano gloss black, piano gloss white, real black oak veneer finish options
Spiked metal screw-in feet included – adjustable for level
Overall Dimensions: 1275mm (H) x 300mm (W) x 460.7mm (D) (includes grille, feet, and binding posts)
Weight Unboxed: 43.9 kgs

SVS Ultra Speakers

Led by award-winning designer Mark Mason, every aspect of the Ultra Speaker design was developed with extreme performance, stunning aesthetics and superb fidelity as the overriding priorities. The finest quality materials and components were used, with many parts being custom-designed exclusively for this application. The Ultra Speakers were modelled using the most sophisticated engineering available, including finite element analysis (FEA) to optimise performance. Each speaker was refined after months of anechoic chamber and calibrated listening room measurements at the world-renowned National Research Council facilities in Canada.

SVS Prime Series Speakers

Consisting of Pinnacle, Elevation, Bookshelf, Tower, Centre and Satellite models, the Prime Series is SVS' second full-range speaker family offering. SVS has combined knowledge gained from developing the award-winning Ultra Series with new engineering and form factor changes to achieve flagship performance, features and specifications from the Prime Series at mainstream prices. The Prime Series introduces the experience of high-end audio to a broader audience.

Prime Pinnacle (Black Ash pair)

The ultimate expression of what SVS sought to create with the Prime Series loudspeakers is epitomized in Prime Pinnacle. Audiophile refinement and musicality without sacrificing wide dynamic range, deep, effortless bass and all the excitement of a world-class loudspeaker.

Floor Standing Tower Loudspeaker

1" Aluminium Dome Tweeter:

FEA-optimized diffuser for airy and unveiled presentation, Aluminium dome for exceptional transient response

5.25" Midrange Polypropylene cone Driver:

Polypropylene cone for excellent stiffness / mass ratio and pistonic behaviour

Triple 6.5" Polypropylene cone Woofers:

Long stroke motor and suspension for high output, Polypropylene cone for excellent stiffness / mass ratio and pistonic behaviour

3-way crossover with premium-grade capacitors, air-core inductors and heavy-trace printed circuit boards

Rated bandwidth: 29 Hz - 25 kHz (± 3 dB)

Nominal impedance: 8 Ω

Sensitivity: 88 dB (2.83V @ 1m full-space, 300-3kHz)

Recommended amplifier power: 20 - 300 W

5-way binding posts

Triple 2" wide-flared rear-firing ports
