

RETAIL Price List - Valid From April 2026

Since 1989, Opera Loudspeakers has combined Italian craftsmanship with the advanced technologies, creating speakers renowned for their elegance, unique sound and use of premium materials. Hand-made in Treviso by the Nasta family from locally sourced fine woods and leathers, the Opera range comprises two speaker lines: the upmarket Callas family of three models (with special editions), and the more affordable four-strong Classica V2 range.

Classica V2

Hand-made in Italy, the Classica V2 of two floor and two bookshelf speakers has been completely reimagined to include a redesigned crossover, custom drivers, a modern wood-effect and all-new concrete finishes, while the front, top, and rear panels remain wrapped in the eco-leather that has defined the Classica aesthetic.
