SVS Powered Cylinder Subwoofers

With just a 16.5" diameter, no other family of subwoofers provides more bass performance per square inch of floor space. This unique and proprietary cylinder design utilises vertical space in order to achieve perfectly deep-tuned bass. With a sleek footprint, these cylinder subwoofers fit conveniently into any theatre room without sacrificing performance. A bottomfiring, long-stroke driver provides a low centre of gravity and excellent stability. The exclusive integrated amp-mount provides a secure and elegant platform for our sophisticated DSP amplifiers. Complete with resonance-free grille.

**SVS Prime Series Speakers**

Consisting of Pinnacle, Elevation, Bookshelf, Tower, Centre and Satellite models, the Prime Series is SVS' second full-range speaker family offering. SVS has combined knowledge gained from developing the award-winning Ultra Series with new engineering and form factor changes to achieve flagship performance, features and specifications from the Prime Series at mainstream prices. The Prime Series introduces the experience of high-end audio to a broader audience.

**Prime Pinnacle (Black Ash pair)**

The ultimate expression of what SVS sought to create with the Prime Series loudspeakers is epitomized in Prime Pinnacle. Audiophile refinement and musicality without sacrificing wide dynamic range, deep, effortless bass and all the excitement of a world-class loudspeaker.

Floor Standing Tower Loudspeaker

1" Aluminium Dome Tweeter:

FEA-optimized diffuser for airy and unveiled presentation, Aluminium dome for exceptional transient response

5.25" Midrange Polypropylene cone Driver:

Polypropylene cone for excellent stiffness / mass ratio and pistonic behaviour

Triple 6.5" Polypropylene cone Woofers:

Long stroke motor and suspension for high output, Polypropylene cone for excellent stiffness / mass ratio and pistonic behaviour

3-way crossover with premium-grade capacitors, air-core inductors and heavy-trace printed circuit boards

Rated bandwidth: 29 Hz - 25 kHz ( $\pm 3$  dB)

Nominal impedance: 8  $\Omega$

Sensitivity: 88 dB (2.83V @ 1m full-space, 300-3kHz)

Recommended amplifier power: 20 - 300 W

5-way binding posts

Triple 2" wide-flared rear-firing ports

Cloth grille with pin / cup retention system
